

# DESIGN SERVICES

The **Design Services** package provides you with branded graphics for your Influitive community. Delivered by Influitive and our partner network, this package takes design work off your plate and provides you with custom logos, headers and landing pages for your Influitive community. Using your guidelines, we will work with you to make sure your Influitive community meets your brand standards and reflects the theme and tone of your program.

The **Design Services** package is ideal for organizations looking for a quick turnaround when in-house options are unavailable or require long waits. Powering up your launch or relaunch efforts, Influitive offers branding options closely aligned to your program plans and tightly aligned to your project timelines.

## Designed For Your Brand

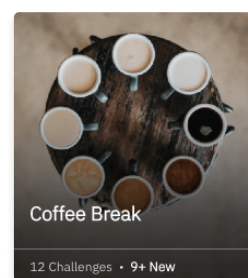

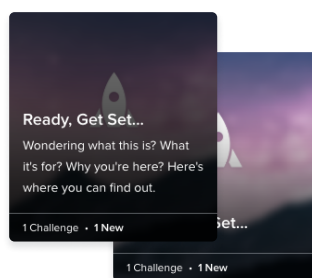

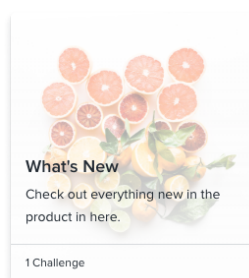

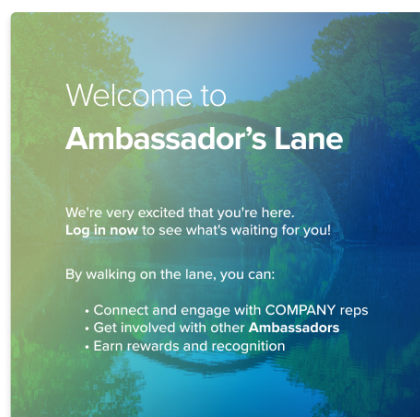

Make sure your designs reflect your brand. Your **Design Services** package includes three initial design options and two iterations for your chosen design.

## Get Started

Kick things off with a half hour meeting with your Graphic Designer. Come prepared with as much information as you can provide such as ideas you have, your company's branding guidelines and files for any fonts/colors that will be used.

### Elements We Can Provide

- > Influitive Community Banner
